Accredited Centre  
685

## Who is this course for?

This course is for anyone seeking to enhance their knowledge of health and safety through an internationally accredited qualification.

The International General Certificate is designed for people from all industry sectors who seek to embark on a career in safety and for current safety practitioners who are looking to further develop their skills and competencies while gaining a formal, internationally recognised qualification.

The course introduces international health and safety best practice standards making comparisons, where appropriate, to the New Zealand context.

working to keep your work safe
